

# Babaria Institute of Pharmacy, Varnama, Vadodara Summer Certificate Program in Pharmacy at Carleton University, Canada

## CERTIFICATE PROGRAM IN PHARMACY 4 WEEK COURSE

### PROPOSAL

Carleton University's Global Academy provides professional development opportunities to students and professionals from various fields, including Management, Business, Engineering, Computer Science, and Arts. The aim of this initiative is to provide global exposure opportunities for participants who seek job opportunities around the world.

### COURSE DESCRIPTION

This course offers an introduction into emerging biotechnology, clinical pharmacology, molecular biology, toxicology, and regulatory affairs. Participants will learn the basics of pharmacology and toxicology, and have the option to do an overview of regulatory affairs or receive an advanced certificate.

### TOPICS COVERED

#### Option 1: Regulatory affairs

- Introduction to Pharmaceutical Regulatory Affairs

#### Option 2: The advanced Certificate in Regulatory Affairs

- Food and Drug Law - Product Development (Pre-market) - Product Development (Manufacturing) - Management of regulatory submissions - Ethics for Life Science Professionals

### LEARNING OUTCOMES

This 4 week program is designed to teach participants about the basics of pharmacology and toxicology and will provide insight into pharmaceutical regulatory affairs. Participants will learn about food and drug laws in Canada, the U.S. and Europe, and will learn how to apply international regulations. Additionally, they will learn how to apply ethical ideas to biomedical practices.

### CERTIFICATE

Upon successful completion of the training program, students will receive a Certificate of Completion from the Canada-India Centre at Carleton University.
